Energy performance certificate (EPC)

21 Grantham Close PLYMOUTH PL7 1UL	Energy rating **D**	Valid until:	**21 September 2036**
		Certificate number:	**7336-0621-7600-0639-6226**

roperty type	Semi-detached house
otal floor area	68 square metres

Rules on letting this property

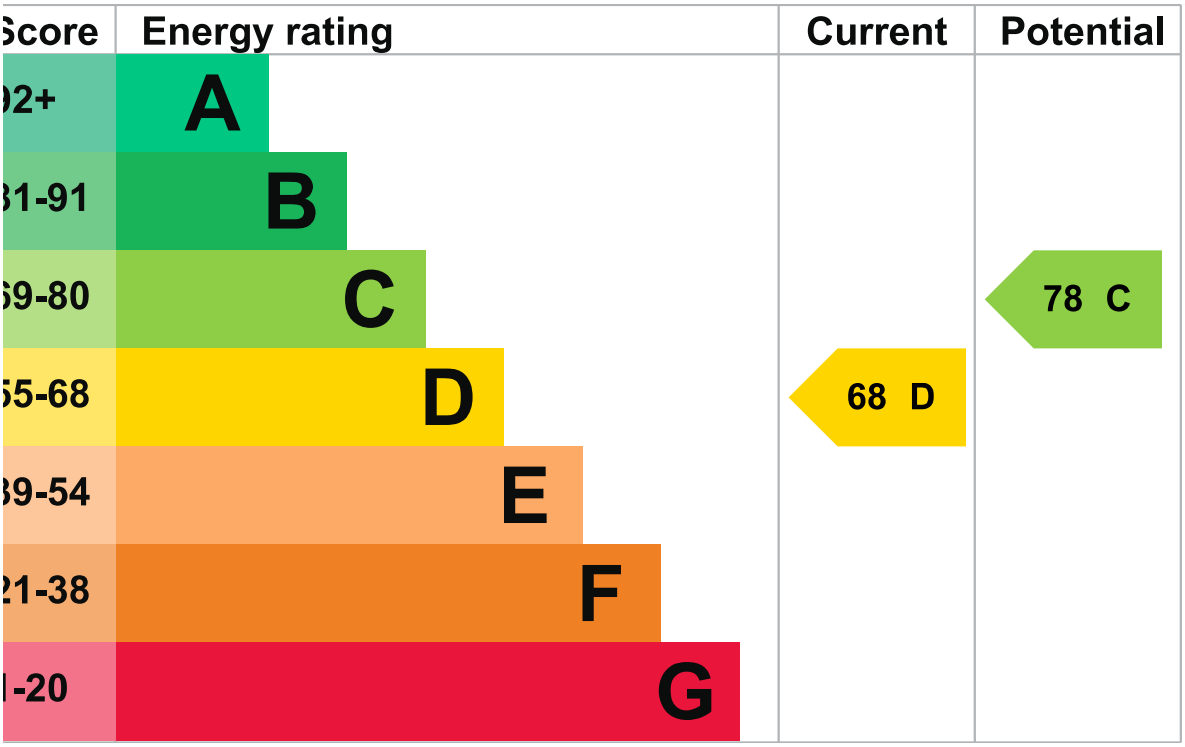

operties can be let if they have an energy rating from A to E.

u can read guidance for landlords on the regulations and exemptions (https://www.gov.uk/guidance/domestic-private-rented-property-inimum-energy-efficiency-standard-landlord-guidance).

Energy rating and score

is property's energy rating is D. It has the potential to be C.

e how to improve this property's energy efficiency.

e graph shows this property's current and potential energy rating.

operties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are ely to be.

r properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

Breakdown of property's energy performance

eatures in this property

atures get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well atures work or their condition.

sumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

ature	Description	Rating
all	Cavity wall, as built, no insulation (assumed)	Poor
oof	Roof room(s), limited insulation (assumed)	Poor
ndow	Fully double glazed	Poor
ain heating	Boiler and radiators, mains gas	Good
ain heating control	Programmer, room thermostat and TRVs	Good

ature	Description	Rating
ɔt water	From main system	Good
ghting	Below average lighting efficiency	Poor
ɔor	Suspended, no insulation (assumed)	N/A
tightness	(not tested)	N/A
condary heating	None	N/A

rimary energy use

e primary energy use for this property per year is 196 kilowatt hours per square metre (kWh/m2).

About primary energy use

dditional information

ditional information about this property:

- PV recommended
  When considering the PV installation consider installing PV battery and a PV diverter for water heating.
- Cavity fill is recommended

mart meters

is property had **no smart meters** when it was assessed.

nart meters help you understand your energy use and how you could save money. They may help you access better energy dea

nd out how to get a smart meter (https://www.smartenergygb.org/)

low this affects your energy bills

average household would need to spend **£929 per year on heating, hot water and lighting** in this property. These costs usua ake up the majority of your energy bills.

u could **save £171 per year** if you complete the suggested steps for improving this property's energy rating.

is is **based on average costs in 2026** when this EPC was created. People living at the property may use different amounts of ergy for heating, hot water and lighting.

---

leating this property

timated energy needed in this property is:

- 7,352 kWh per year for heating
- 2,504 kWh per year for hot water

mpact on the environment

is property's environmental impact rating is D. It has the potential to be C.

operties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

arbon emissions

n average household produces	6 tonnes of CO
his property produces	2.4 tonnes of CO
his property's potential production	1.8 tonnes of CO

u could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

ese ratings are based on assumptions about average occupancy and energy use. People living at the property may use differen
nounts of energy.

teps you could take to save energy

Do I need to follow these steps in order?

tep 1: Cavity wall insulation

ypical installation cost	£900 - £1,5(
ypical yearly saving	£9
otential rating after completing step 1	71 C

tep 2: Floor insulation (suspended floor)

ypical installation cost	£5,000 - £10,0(
ypical yearly saving	£5
otential rating after completing steps and 2	73 C

tep 3: Low energy lighting

ypical installation cost	£210 - £24
ypical yearly saving	£2
otential rating after completing steps to 3	73 C

tep 4: Solar photovoltaic panels, 2.5 kWp

ypical installation cost	£8,000 - £10,0(
ypical yearly saving	£19
otential rating after completing steps to 4	78 C

dvice on making energy saving improvements

t detailed recommendations and cost estimates

elp paying for energy saving improvements

u may be eligible for help with the cost of improvements:

Free energy saving improvements: Warm Homes Local Grant (WHLG)
Heat pumps and biomass boilers: Boiler Upgrade Scheme
Help from your energy supplier: Energy Company Obligation

Who to contact about this certificate

ontacting the assessor

ou're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

ssessor's name	Stuart Millington
elephone	01752 896020
mail	info@millingtontunnicliff.co.uk

ontacting the accreditation scheme

ou're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

ccreditation scheme	Elmhurst Energy Systems Ltd
ssessor's ID	EES/008736
elephone	01455 883 250
mail	enquiries@elmhurstenergy.co.uk

bout this assessment

ssessor's declaration	Owner or Director of the organisation dealing with the property transaction

ate of assessment	21 September 2026
ate of certificate	22 September 2026
